Post-Hospitalization Physician Visit

Post-Hospitalization Physician Visit:

The post-hospitalization visit is offered at no cost to Medicare members who were hospitalized. If you complete your post-hospitalization visit within 30 days of leaving the hospital, you will be eligible to receive a reward card.

CareFirst BlueCross BlueShield Medicare Advantage understands that it can be tough going home after being in the hospital. You may have left the hospital with multiple follow-up instructions. You may have many medicines to take. You may also want more medical help and support in the weeks following your hospital stay.

This visit may be with a primary care provider or specialist. During this visit, your doctor will go over the instructions that you got at the hospital. Your doctor will see if you need to adjust any medication, follow-up on test results, and discuss future treatments.
