## **POLICY Document for HERCEPTIN**

The overall objective of this policy is to support the appropriate and cost effective use of the medication, specific to use of preferred medication options and overall clinically appropriate use. This document provides specific information to each section of the overall policy.

#### **Section 1: Preferred Product**

Policy information specific to preferred medications

#### Section 2: Clinical Criteria

• Policy information specific to the clinical appropriateness for the medication

# **Section 1: Preferred Product**

# EXCEPTIONS CRITERIA TRASTUZUMAB

PREFERRED PRODUCTS: HERCEPTIN, HERCEPTIN HYLECTA, KANJINTI, and TRAZIMERA

#### **POLICY**

This policy informs prescribers of preferred products and provides an exception process for targeted products through prior authorization.

#### I. PLAN DESIGN SUMMARY

This program applies to the trastuzumab products specified in this policy. Coverage for targeted products is provided based on clinical circumstances that would exclude the use of the preferred product and may be based on previous use of a product. The coverage review process will ascertain situations where a clinical exception can be made. This program applies to members who are new to treatment with a targeted product for the first time.

Each referral is reviewed based on all utilization management (UM) programs implemented for the client.

**Table. Trastuzumab Products** 

|           | Product(s)   |  |  |  |  |
|-----------|--|--|--|--|--|
| Preferred | Herceptin (trastuzumab)                                |  |  |  |  |
|           | Herceptin Hylecta (trastuzumab and hyaluronidase-oysk) |  |  |  |  |
|           | Kanjinti (trastuzumab-anns)                            |  |  |  |  |
|           | Trazimera (trastuzumab-qyyp)                           |  |  |  |  |
| Targeted  | Herzuma (trastuzumab-pkrb)                             |  |  |  |  |
|           | Ogivri (trastuzumab-dkst)                              |  |  |  |  |

#### II. EXCEPTION CRITERIA

Coverage for the targeted product is provided when either of the following criteria is met:

- A. Member has received treatment with the targeted product in the past 365 days.
- B. Member has had a documented intolerable adverse event to at least three of the preferred products, and the adverse event was not an expected adverse event attributed to the active ingredient as described in the prescribing information (i.e., known adverse reaction for both the brand and biosimilar medication).

# **Section 2: Clinical Criteria**

## STANDARD MEDICARE PART B MANAGEMENT

**HERCEPTIN** (trastuzumab)

**KANJINTI** (trastuzumab-anns)

**OGIVRI** (trastuzumab-dkst)

TRAZIMERA (trastuzumab-qyyp)

**HERZUMA** (trastuzumab-pkrb)

**ONTRUZANT** (trastuzumab-dttb)

#### **POLICY**

#### I. INDICATIONS

The indications below including FDA-approved indications and compendial uses are considered a covered benefit provided that all the approval criteria are met and the member has no exclusions to the prescribed therapy.

#### A. FDA-Approved Indications

#### 1. Adjuvant breast cancer

Treatment of human epidermal growth factor receptor 2 (HER2)-overexpressing node positive or node negative (estrogen receptor (ER)/progesterone receptor (PR) negative or with one high risk feature) breast cancer

- As part of a treatment regimen consisting of doxorubicin, cyclophosphamide, and either paclitaxel or docetaxel
- b. As part of a treatment regimen with docetaxel and carboplatin
- c. As a single agent following multi-modality anthracycline based therapy
- 2. Metastatic breast cancer
  - a. In combination with paclitaxel for first-line treatment of HER2-overexpressing metastatic breast cancer
  - b. As a single agent for treatment of HER2-overexpressing breast cancer in patients who have received one or more chemotherapy regimens for metastatic disease
- 3. Metastatic gastric cancer

In combination with cisplatin and capecitabine or 5-fluorouracil, for the treatment of patients with HER2 overexpressing metastatic gastric or gastroesophageal junction adenocarcinoma, who have not received prior treatment for metastatic disease

#### B. Compendial Uses

- 1. HER2-positive breast cancer:
  - a. Neoadjuvant therapy
  - b. Treatment of recurrent or stage IV (M1) disease
- 2. Intra-cerebrospinal fluid (CSF) treatment of leptomeningeal metastases from breast cancer
- 3. HER2-positive esophageal and esophagogastric junction cancer
- 4. HER2- positive advanced and recurrent uterine serous carcinoma
- 5. HER2-positive recurrent salivary gland tumors with distant metastases
- 6. HER2-amplified and RAS wild-type colorectal cancer in combination with pertuzumab or lapatinib
- 7. HER2-positive non-small cell lung cancer
- 8. Prostate cancer
- 9. Malignant meningitis

All other indications will be assessed on an individual basis. Submissions for indications other than those enumerated in this policy should be accompanied by supporting evidence from Medicare approved compendia.

#### II. CRITERIA FOR INITIAL APPROVAL

#### A. Breast cancer

- 1. Authorization of 12 months may be granted for neoadjuvant treatment of HER2-positive breast cancer as part of a complete treatment regimen.
- 2. Authorization of 12 months may be granted for adjuvant treatment of HER2-positive breast cancer.
- 3. Authorization of 12 months may be granted for treatment of HER2-positive recurrent or metastatic breast cancer.
- 4. Authorization of 12 months may be granted for intra-CSF treatment of leptomeningeal metastases from breast cancer.

## B. Esophageal, gastric, or esophagogastric junction cancer

Authorization of 12 months may be granted for treatment of HER2-positive esophageal, gastric, or esophagogastric junction cancer.

#### C. Uterine serous carcinoma

Authorization of 12 months may be granted for treatment of HER2-positive advanced and recurrent uterine serous carcinoma.

#### D. Salivary gland tumors

Authorization of 12 months may be granted for treatment of HER2-positive recurrent salivary gland tumors with distant metastases.

#### E. Colorectal Cancer

Authorization of 12 months may be granted for treatment of HER2-amplified colorectal cancer.

#### F. Non-small cell lung cancer

Authorization of 12 months may be granted for treatment of HER2-positive non-small cell lung cancer.

### G. Prostate cancer

Authorization of 12 months may be granted for treatment of prostate cancer.

#### H. Malignant meningitis

Authorization of 12 months may be granted for treatment of malignant meningitis

#### **III. CONTINUATION OF THERAPY**

Authorization may be granted for all members (including new members) who are continuing with Herceptin, Kanjinti, Ogivri, Trazimera, Herzuma, or Ontruzant therapy when all of the criteria below are met. Authorization

duration will be 6 months for neoadjuvant treatment of breast cancer and 12 months for other settings or conditions.

- A. The member is currently receiving treatment with Herceptin, Kanjinti, Ogivri, Trazimera, Herzuma, or Ontruzant.
- B. Herceptin, Kanjinti, Ogivri, Trazimera, Herzuma, or Ontruzant is being used to treat a diagnosis or condition enumerated in Section II.
- C. Herceptin, Kanjinti, Ogivri, Trazimera, Herzuma, or Ontruzant has been effective for treating the diagnosis or condition.

#### UNIVERSAL CRITERIA

## **POLICY for Herceptin Hylecta**

The Specialty Universal Med B Criteria ensure appropriate utilization of Specialty medications and confirm that selection elements established in the FDA-approved product labeling and relevant compendia are followed. The criteria may be applied in situations where specific criteria are pending development.

Authorization of 12 months may be granted for a requested medication when clinically appropriate
