## Performance Drug List - Standard Control for Clients with Advanced Control Specialty Formulary® - Chart for CareFirst Formulary 2

The **CVS Caremark® Performance Drug List - Standard Control for Clients with Advanced Control Specialty Formulary® - Chart for CareFirst Formulary 2** is a guide to help you identify products that are both clinically appropriate and cost-effective. These drugs are selected for their quality, effectiveness, and cost based on current medical research and input from a committee of doctors and pharmacies who serve the CareFirst region. Generics listed in therapeutic categories are for representational purposes only. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*.

*The coverage of prescription drugs and supplies along with the utilization management listed on this document is dependent on your benefit plan and is subject to change.*

### PLAN MEMBER

Ask your doctor to consider prescribing, when appropriate, a preferred drug from this list. Take this list along when you or a covered family member sees a doctor.

- Our Pharmacy Benefit Manager, CVS Caremark, may contact your doctor after receiving your prescription to request consideration of a generic equivalent or preferred brand drug, which may lower your out of pocket costs.
- Your specific prescription benefit plan design may not cover certain medications, products or categories, regardless of their appearance in this document. Medications and products recently approved by the U.S. Food and Drug Administration (FDA) may not be covered immediately upon release to the market.
- Your prescription benefit plan design may alter coverage of certain products or vary cost sharing amounts based on the condition being treated.
- You may be responsible for the full cost of medications and products that are removed from coverage.
- To learn more about your specific drug benefit, log into *My Account* at [www.carefirst.com/myaccount](http://www.carefirst.com/myaccount) and click on Drug & Pharmacy Resources under Quick Links or call CareFirst Pharmacy Services at 800-241-3371.
- When a generic medication that is equivalent to a brand-name drug is released to the market, in most instances, that brand-name drug will be designated as a non-preferred option.

### HEALTH CARE PROVIDER

As a way to help manage health care costs, authorize generic substitution whenever possible. If you believe a brand-name product is necessary, consider prescribing a brand name on this list.

- The member's prescription benefit plan design may alter coverage of certain products or vary cost sharing amounts based on the condition being treated.
- This drug list represents a summary of prescription coverage. The member's specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. Products recently approved by the FDA may not be covered immediately upon release to the market.
- The member's prescription benefit plan may have different cost sharing for specific products on the list.
- Unless specifically indicated, drug list products will include all dosage forms.

**FOR YOUR INFORMATION:** New-to-market products and new variations of products already in the marketplace will not be added to the formulary immediately. Each product will be evaluated for clinical appropriateness and cost-effectiveness. Recommended additions to the formulary will be presented to the CVS Caremark National Pharmacy and Therapeutics Committee (or other appropriate reviewing body) for review and approval. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed. To learn more about your specific drug benefit, log into *My Account* at [www.carefirst.com/myaccount](http://www.carefirst.com/myaccount) and click on Drug & Pharmacy Resources under Quick Links or call CareFirst Pharmacy Services at 800-241-3371.

Formulary removals/drugs not included on the preferred options list may be covered by the plan when preferred options are not clinically appropriate.

Drug products are identified by unique numerical product identifiers, called National Drug Codes (NDC), which identify the manufacturer, strength, dosage form, formulation and package size.

Some listings do not include certain NDCs as noted above.

An ACCU-CHEK or ONETOUCH blood glucose meter may be provided at no charge by the manufacturer to those individuals currently using a meter other than ACCU-CHEK or ONETOUCH. For more information on how to obtain a blood glucose meter, call: 1-877-418-4746.

BD ULTRAFINE syringes and needles are the only preferred options.

ACCU-CHEK or ONETOUCH brand test strips are the only preferred options.

Generic prenatal vitamins and CITRANATAL are the only preferred options.

Fluticasone HFA is covered for members 6 years of age and under.

## Advanced Control Specialty Formulary<sup>®</sup> - Chart for CareFirst Formulary 2

The **CVS Caremark<sup>®</sup> Advanced Control Specialty Formulary<sup>®</sup> - Chart for CareFirst Formulary 2** is a guide to help you identify products that are both clinically appropriate and cost-effective. These drugs are selected for their quality, effectiveness and cost based on current medical research and input from a committee of doctors and pharmacies who serve the CareFirst region. Generics listed in therapeutic categories are for representational purposes only. This is not an all-inclusive list and does not guarantee coverage. This list represents brand-name drugs in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*. Generic drugs should be considered the first line of prescribing; however, if there is no generic available, there may be more than one brand-name drug to treat a condition.

*The coverage of prescription drugs and supplies along with the utilization management listed on this document is dependent on your benefit plan and is subject to change.*

### PLAN MEMBER

Ask your doctor to consider prescribing, when medically appropriate, a preferred medicine from this list. Take this list along when you or a covered family member sees a doctor.

- Our Pharmacy Benefit Manager, CVS Caremark, may contact your doctor after receiving your prescription to request consideration of a generic equivalent or preferred brand drug, which may lower your out of pocket costs.
- Your specific prescription benefit plan design may not cover certain medications, products or categories, regardless of their appearance in this document. Medications and products recently approved by the U.S. Food and Drug Administration (FDA) may not be covered immediately upon release to the market.
- Your prescription benefit plan design may alter coverage of certain products or vary cost sharing amounts based on the condition being treated.
- You may be responsible for the full cost of medications and products that are removed from coverage.
- To learn more about your specific drug benefit, log into *My Account* at [www.carefirst.com/myaccount](http://www.carefirst.com/myaccount) and click on Drug & Pharmacy Resources under Quick Links or call CareFirst Pharmacy Services at 800-241-3371.
- When a generic medication that is equivalent to a brand-name drug is released to the market, in most instances, that brand-name drug will be designated as a non-preferred option.

### HEALTH CARE PROVIDER

As a way to help manage health care costs, authorize generic substitution whenever possible. If you believe a brand-name product is medically necessary, consider prescribing a brand name on this list.

- The member's prescription benefit plan design may alter coverage of certain products or vary cost sharing amounts based on the condition being treated.
- This drug list represents a summary of prescription coverage. The member's specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. Products recently approved by the FDA may not be covered immediately upon release to the market.
- The member's prescription benefit plan may have different cost sharing for specific products on the list.
- Unless specifically indicated, drug list products will include all dosage forms.

**FOR YOUR INFORMATION:** New-to-market products and new variations of products already in the marketplace will not be added to the formulary immediately. Each product will be evaluated for clinical appropriateness and cost-effectiveness. Recommended additions to the formulary will be presented to the CVS Caremark National Pharmacy and Therapeutics Committee (or other appropriate reviewing body) for review and approval. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed. To learn more about your specific drug benefit, log into *My Account* at [www.carefirst.com/myaccount](http://www.carefirst.com/myaccount) and click on Drug & Pharmacy Resources under Quick Links or call CareFirst Pharmacy Services at 800-241-3371.

For VOSEVI listing above: For use in patients previously treated with an HCV regimen containing an NS5A inhibitor (for genotypes 1-6) or sofosbuvir without an NS5A inhibitor (for genotypes 1a or 3).

An exception process is in place for specific clinical or regulatory circumstances that may require coverage of an excluded medication.
