This plan summary is for comparison purposes only and does not create rights not given through the benefit plan.

- <sup>1</sup> In-Network: When covered services are rendered in Maryland, Washington, D.C. and/or Northern Virginia, collectively known as the CareFirst BlueChoice service area, by a provider in the CareFirst BlueChoice Provider network, care is reimbursed at the in-network level. In-network benefits are based on the CareFirst BlueChoice Allowed Benefit. The CareFirst Blue Choice Allowed Benefit is generally the contracted rate or fee schedules that CareFirst BlueChoice providers have agreed to accept as payment for covered services. These payments are established by CareFirst BlueChoice, Inc., however, in certain circumstances, an allowance may be established by law. Outside of the CareFirst BlueChoice service area, when covered services are rendered by a provider in the Preferred Provider network, care is also covered at the in-network level. These in-network benefits are based on the contracted rates or fee schedules that Preferred Providers have agreed to accept as payment for covered services that are established by the local BlueCross and BlueShield Plan, however, in certain circumstances, an allowance may be established by law.
- <sup>2</sup> Out-of-Network: When covered services are rendered by a provider that is not in the CareFirst BlueChoice network in Maryland, Washington, D.C. or Northern Virginia, or is not in the Preferred Provider network outside of the CareFirst BlueChoice service area, the care is reimbursed as out-of-network. Out-of-network benefits are based on the Allowed Benefit. The Allowed Benefit is generally the contracted rate or fee schedule that are established by CareFirst BlueChoice, or the local BlueCross and BlueShield Plan, however, in certain circumstances, an allowance may be established by law. When services are rendered by non-participating or non-preferred providers, the member may be responsible for charges in excess of the Allowed Benefit. The difference between the Allowed Benefit and the charge for which the member is responsible will not contribute to the Out-of-Pocket Limit.
- <sup>3</sup> Out-of-Network coinsurance amounts are based on a percentage of the Out-of-Network Allowed Benefit. When Out-of-Network services are rendered by a non-participating provider, the member is responsible for 100% of the charge. The difference between the Allowed Benefit and the charge does not contribute to the Out-of-Pocket limit.
- <sup>4</sup> For purpose of determining the deductible amounts for those with coverage other than Individual, all family member's expenses will be combined to meet the family deductible amount. There is no individual deductible. The family deductible amount must be met before any member starts receiving benefits as indicated above. The deductible may be met by one family member or any combination of members.
- <sup>5</sup> For purposes of determining the out-of-pocket amounts for those with coverage other than Individual, when one family member meets the individual out-of-pocket maximum, their services will be covered at 100% up to the Allowed Benefit. Each family member cannot contribute more than the individual out-of-pocket maximum amount.
- <sup>6</sup> Members must use a LabCorp facility for any laboratory services in order to obtain coverage in-network when in the Maryland, Washington, D.C. and Northern Virginia service area. Services performed at a facility in Maryland, D.C., or Northern Virginia that is not part of the LabCorp network will be considered out-of-network. Any lab work performed in an outpatient hospital setting requires prior authorization.
- <sup>7</sup> Members who are unable to conceive have coverage for the evaluation of infertility services performed to confirm an infertility diagnosis, and some treatment options for infertility as covered under the terms of the member's contract. Preauthorization required.
- <sup>8</sup> In-network preventive prenatal and postnatal office visits will be covered to the same extent as other In-network preventive office visits.

The deductible and out-of-pocket amounts are calculated based on the Allowed Benefit for Covered Services.
