Section 2—List of Network Providers 9

Section 1–Introduction

This directory provides a list of CareFirst BlueCross BlueShield Advantage DualPrime's network providers. To get detailed information about your healthcare coverage, please see your Evidence of Coverage (EOC).

The network providers listed in this directory have agreed to provide you with your medical care, dental, hearing, and vision services. You may go to any of our network providers listed in this directory.

All providers in this provider directory accept both Medicare and Medicaid.

The first step in participating in our plan is to choose a PCP. Choosing your PCP from this directory is a very important part of your care through CareFirst. Your PCP can coordinate your medical care and provide treatment for a variety of medical conditions.

Once you have decided on a PCP, indicate your choice on your enrollment form.

You will have to choose one of our network providers listed in this directory to be your **P**rimary **C**are **P**rovider (PCP). Generally, you should get your healthcare services from your PCP. In order to get the most out of your benefits, you should call your PCP first when you have a medical problem.

What is a "PCP" and what does the PCP do for you?

Your PCP is a physician or nurse practitioner. They will have a complete view of your health needs and of the care you're receiving from other providers. As the leader of your healthcare team, your PCP will be able to use this information to better manage and coordinate your care, a key to better health.

What types of providers may act as a PCP?

Our PCPs are medical doctors (MDs), osteopathic doctors (DOs) or Nurse Practitioner (NPs) who specialize in one of the following areas:

- Family and general practice—Family practice and general practice physicians treat patients of all ages, from newborns to adults. They commonly provide obstetrical and gynecological care as well. These physicians have a broad range of medical knowledge and have completed training in pediatrics, surgery, internal medicine and geriatrics.
- Internal medicine—Internists are trained to identify and treat all aspects of adolescent, adult and geriatric medical conditions. Most of our network internists generally treat patients age 18 and older.
- Pediatrics—Pediatricians specialize in the treatment of patients age 21 or younger.
- Internal medicine/pediatrics—Physicians in this category are trained as both internists and pediatricians. They treat children and adults.
- Preventive medicine—Preventive medicine physicians promote health and well-being for patients of all ages.

If you have a qualifying condition such as end-stage renal disease, you may choose a nephrologist to act as your primary care provider. In some additional situations, other specialists may also be approved to serve as your PCP.

The role of a PCP

Your PCP is your main healthcare provider. You'll see your PCP for your regular checkups. If you get sick, your PCP will be the first person who gives you care. They will prescribe medicines for you and can recommend specialists and other providers, if needed. When your PCP thinks that you need specialized treatment, they may send you to see a plan specialist. A specialist is a doctor who provides healthcare services for a specific disease or part of the body. Examples of specialists include oncologists (who care for patients with cancer), cardiologists (who care for patients with heart conditions) and orthopedists (who care for patients with certain bone, joint or muscle conditions).

What is the role of the PCP in coordinating covered services?

Your PCP coordinates the covered services you get as a member of our plan. "Coordinating" your services includes working with, consulting with or directing you to other plan providers about your health status and specific healthcare needs. Coordination may also include arranging for prior authorizations as needed. Since your PCP will provide and coordinate your medical care, you should have all your past medical records sent to your PCP's office. Chapter 8 of your Evidence of Coverage tells you how we will protect the privacy of your medical records and personal health information.

What is the role of the PCP in obtaining prior authorization?

If you need certain types of covered services or supplies, your PCP will direct and arrange for prior authorization (prior approval) from our plan.

For what services will your PCP need to get prior authorization?

Prior authorization is an approval in advance to get services. As our plans are HMO plans, some in-network services are covered only if your doctor or other network provider gets "prior authorization" from our plan. See Chapter 4, Section 2.1 of your Evidence of Coverage for information about services that require prior authorization. Covered services that need prior authorization are noted in the Chapter 4 Medical Benefits Chart. It is important to know what Medicare will or will not cover. Be sure to ask your provider if a service is covered. Providers should let you know when something is not covered. Providers should give you a written notice or tell you verbally when Medicare does not cover the service.

You must receive your care from a network provider. In most cases, care you receive from an out-of-network provider (a provider who is not part of our plan's network) will not be covered. *Here are three exceptions:*

1. The plan covers emergency care or urgently needed services that you get from an out-of-network provider.
2. If you need medical care that Medicare requires our plan to cover and the providers in our network cannot provide this care, you can get this care from an out-of-network provider. In this situation, you would need to obtain a prior authorization from your PCP. If you have questions about this process, please contact Member Services at 844-386-6762 (TTY: 711).
3. The plan covers kidney dialysis services that you get at a Medicare-certified dialysis facility when you are temporarily outside the plan's service area.

For urgent or emergency care from an out-of-network provider, or when you have been authorized to receive treatment from an out-of-network provider, the out-of-network provider should bill CareFirst and should not bill you. Should a provider bill you for more than your cost share, please contact us to find out how to submit the bill to us for payment. Once we receive the itemized bill, we can process it and determine what your cost share will be.

You are covered both in and out of our network for emergency and urgently needed care.

A **"medical emergency"** is when you, or any other prudent layperson with an average knowledge of health and medicine, believe that you have medical symptoms that require immediate medical attention to prevent loss of life, loss of a limb or loss of function of a limb. The medical symptoms may be an illness, injury, severe pain or a medical condition that is quickly getting worse.

If you have a medical emergency:

- **Get help as quickly as possible.** Call 911 for help or go to the nearest emergency room or hospital. Call for an ambulance if you need it. You do not need to get approval or a referral first from your PCP.
- **As soon as possible, make sure that our plan has been told about your emergency.** We need to follow up on your emergency care. You or someone else should call to tell us about your emergency care, usually within 48 hours. You can contact us by calling the number on the back of your ID card.
- You can also try one of the following services:
  - Call the 24/7 Nurse Advice Line at 1-800-229-8201 (TTY: 711) anytime for guidance on what to do in an emergency.
  - Visit your PCP's office as a walk in and provide an overview of your symptoms.
  - Visit an Urgent Care center before going to the emergency room or hospital.

"Urgently needed services" are non-emergency, unforeseen medical illnesses, injuries or conditions that require immediate medical care. Urgently needed services may be furnished by network providers or by out-of-network providers when network providers are temporarily unavailable or inaccessible. The unforeseen condition could, for example, be an unforeseen flare-up of a known condition that you have.

When in our service area, you should always try to obtain urgently needed services from network providers. However, if providers are temporarily unavailable or inaccessible and it is not reasonable to wait to obtain care from your network provider when the network becomes available, we will cover urgently needed services that you get from an out-of-network provider.

When you are outside the service area and cannot get care from a network provider, our plan will cover urgently needed services that you get from any provider.

Please see your Evidence of Coverage Chapter 3 for more information on emergency and urgently needed care.

You must use network providers, except in emergency or urgent care situations or for out-of-area renal dialysis or other services. If you obtain routine care from out-of-network providers, neither Medicare nor CareFirst BlueCross BlueShield Advantage DualPrime will be responsible for the costs.

Out-of-network/non-contracted providers are under no obligation to treat CareFirst BlueCross BlueShield Medicare Advantage members, except in emergency situations. Please contact Member Services at 844-386-6762 (TTY: 711) or see your Evidence of Coverage for more information, including the cost sharing that applies to out-of-network services.

What is the service area for CareFirst BlueCross BlueShield Advantage DualPrime?

The entire state of Maryland.

How do you find CareFirst BlueCross BlueShield Advantage DualPrime providers that serve your area?

Our directory is organized by provider type and then by county and city. You can find a network provider nearest your home by looking for the provider in the county and city nearest to you.

If you have questions about CareFirst BlueCross BlueShield Advantage DualPrime or require assistance in selecting a PCP, please call our Member Service Department at 1-844-386-6762, from 8 a.m.–8 p.m., ET, 7 days a week from October 1 through March 31. From April 1 through September 30, our hours are 8 a.m.–8 p.m., ET, Monday through Friday. TTY users should call 711. You can also visit **carefirst.com/mddsnp**.

How long should a member have to wait for an appointment?

CareFirst BlueCross BlueShield Advantage DualPrime has defined timeframes with its contracted providers regarding how long a member should have to wait for an appointment. They are shown below:

- Primary Care routine and preventive care: Appointments should be provided within 30 business days.
- Primary Care services that are not an emergency or urgently needed, but require medical attention: Appointments should be provided within 7 business days.
- Behavioral health services that are not an emergency or urgently needed, but require attention: Appointments should be provided within 7 business days.
- Urgently Needed services or Emergencies: Members should be seen immediately.
